

COLOURED GROUTS FOR FLOOR AND WALL TILING

KEMGROUT FLEXIBLE

A hydrophobic fine grout for joints up to 5mm. **Mould and fungi resistant.**

KEMGROUT SANDED

A fine sanded grout with a smooth finish for joints 2mm to 10mm. **Acid and chemical resistant.**

EPEGROUT

A three-component, water-washable, chemical-resistant, epoxy tile grout for joints up to 10mm. Available in **Kemgrout Flexible** colours.

EPEGROUT TRADE

A water-based, commercial, sanded epoxy grout for joints 2mm to 10mm. Available in White, Buff, Light Grey, Mid Grey, Charcoal and Black.

EPEGROUT ULTRA

An easy clean off, solvent-free, pool grade, epoxy grout with chemical and physical resistance combined with easy application properties. Available in White, Buff, Light Grey, Mid Grey, Charcoal and Black.

GROUT SHIELD

A water-based, silicone sealer for sanded and fine grouts that repels water and shields the grout from contaminants and staining. For use on exterior and interior floors and walls. Does not change the appearance of the grout.

PRIMEBOND

An acrylic-based, liquid additive for **Kemgrout** to increase the strength, mould resistance and reduce grout staining and discolouration.
